Portfolio

Professional Summary

I'm a passionate Computer Science graduate with a strong interest in software development and front-end design. I specialize in creating user-friendly, visually appealing interfaces that balance aesthetics and functionality. With a keen eye for detail and a drive to stay up-to-date with modern technologies, I aim to deliver engaging digital experiences. I am eager to contribute fresh ideas and add value to innovative and forward-thinking development teams.

Education

Galgotias University

2021 - 2025

Bachelor of Technology in Computer Science and Engineering, CGPA: 8.7

John Milton Public School, Agra

2021

Intermediate

The International School, Agra

2019

High School

Experience

• Zidio Development Company

Dec 2024 - Mar 2025

Software Development Engineer

- Contributed to full-stack web application development, focusing on both frontend and backend technologies.
- Led a team of junior developers by coordinating tasks, conducting code reviews, and ensuring adherence to project deadlines and quality standards.
- Collaborated closely with the backend team to implement robust authentication and authorization features, ensuring a secure and seamless user experience.

• TATA Consultancy Services (via Forage)

Jun 2024 - Jul 2024

Data Visualization Simulation

- Completed a simulation involving creating data visualizations for Tata Consultancy Services.
- Prepared questions for a meeting with client senior leadership.
- Created visuals for data analysis to help executives with effective decision making.

Projects

• Full Stack AI Car Marketplace

2025

Next JS, Supabase, Tailwind, Prisma, ArcJet, Shadcn UI

GitHub

- Built an AI-powered car marketplace using Next.js, Supabase, and Prisma with real-time search and authentication.
- Implemented AI-driven recommendation algorithms to personalize car suggestions based on user preferences and browsing history.
- Integrated secure user authentication and authorization workflows using Supabase's built-in features to protect user data and manage sessions.

• Job Portal

2024

Full Stack React JS Tailwind, Supabase, Clerk, Shadcn UI

GitHub

- Designed and developed a fully responsive Job Portal ensuring seamless experience across desktop and mobile devices.
- Implemented secure authentication and authorization using Clerk to manage user sessions and protect user data.
- Built dynamic dashboards for job seekers and recruiters, enabling features like resume upload, job applications, and real-time job tracking.
- Integrated advanced search and filtering (by location, salary, type) to improve job discovery and user engagement.

Technical Skills

- **Languages & Databases:** HTML, CSS, JavaScript, React.js, Python, MongoDB, MySQL, Supabase, Clerk
- **Frameworks & Tools:** Git, GitHub, Tailwind CSS, Prisma, Shadcn UI, Visual Studio Code, LaTeX
- **Soft Skills:** Teamwork, Leadership, Adaptability, Presentation, Problem Solving, Creativity

Certifications

- Published "Emotion Sense: A New Era of Emotion Recognition" in Journal of Technology
- Zidio Development Company – Training Completion
